

INTERNATIONAL DAY FOR BIOLOGICAL DIVERSITY

			<p><i>INTERNATIONAL DAY FOR BIOLOGICAL DIVERSITY IS CELEBRATED EVERY YEAR ON 22ND MAY</i></p>
<i>Cycas beddomei</i>	<i>Eurynorhynchus pygmeus</i>	<i>Hypericum gaitii</i>	
<p><i>Theme 2015</i></p> <p>"BIODIVERSITY FOR SUSTAINABLE DEVELOPMENT"</p>			
	<i>Lavandula angustifolia</i>	<i>Batagur baska</i>	
			
	<i>Dicerorhinus sumatrensis</i>	<i>Decalepis hamiltonii</i>	
<i>Gyps bengalensis</i>			
	<i>Syzygium alternifolium</i>	<i>Calodactylodes aureus</i>	<i>Mesua ferrea</i>
<p><i>Biodiversity plays a vital role in our day-to-day life without which we cannot survive. At this juncture, we are losing our biodiversity at an alarming rate due to human needs and greed. Now it's time to open our eyes, realize the importance of biodiversity, start to preserve and conserve plants and animals for the planet's health.</i></p>
