

National Tourism Day

25th January, 2021

This celebration is all about to cultivate and create awareness among the Indian society on the significance of tourism, and its importance for the country's economy.

Travel advice during pandemic

✓ **Make An Inventory List on what to carry-**

Your list should include a hand sanitizer (with more than 60% alcohol content), disinfectant wipes, tissues, and a face mask.

✓ **Be Mindful Of What You Touch-**

It's important to be mindful when using devices or touching surfaces that others have used too. Use a generous amount of sanitizer whenever you touch any of these surfaces.

✓ **Minimize Human Contact-**

Wherever possible, try to rely on technology and automation. Try not to touch common surfaces, maintain social distancing.

✓ **Wipe Down Your Surroundings-**

Disinfect your surrounding whenever you take a seat.

✓ **Stay Home if You're Sick-**

This is the most important point. More often than not, we focus on how to protect ourselves from the disease, but don't think about preventing ourselves from spreading it.

Explore the Incredible India!

According to statistics, over **7.7%** of Indian employees work in the tourism industry.
