

Earth Hour Day

26th March, 2022 (Last Saturday of March)

Theme: "Shape Our Future"

- Earth Hour, organized by World Wide Fund for Nature (WWF), is a global grassroots movement uniting people to take action on environmental issues and protect the planet. Engaging a massive mainstream community, Earth Hour was famously started as a lights out event in Sydney, Australia in 2007.
- Since then, it has grown to engage millions of supporters in more than 185 countries and territories, inspiring individuals and organizations worldwide to take action for the environment, and driving major legislative changes by harnessing the power of the crowd.
- As the movement grows, the one-hour lights out event continues to be the symbol of a broader commitment toward nature and our planet.

Principal Secretary to Govt.
Govt. of Telangana &
Director General, EPTRI

We need to increase energy efficiency and minimize use of electric power. It is to ensure that we do not exhaust precious natural resources and as a result, reduce atmospheric pollution. Earth is our only home, so let's honour earth by observing the Earth hour today 8:30pm to 9:30pm. Let's pledge to save electricity and save nature.

***This Earth Hour shine a light on
Climate Action.***

Turn Off

the lights at

8:30 - 9:30 PM to stand united for
each other and the **one home**
we all share

EARTH HOUR

Switch off non essential lights
and electrical devices

Illuminate with Candles
and flash lights of phones

Reduce the carbon footprint.

Do your bit and shape the future

60+

EARTH HOUR
