

WORLD LION DAY

10th AUGUST 2020

Save the Lions...It's Time

This day is to celebrate one of the most majestic species to walk the earth. Each year on August 10, Lion lover's around the globe use this day to bring awareness to the declining population of lions.

Some Amazing facts about Lions

- Lions roar to communicate their position to other prides. A lion's roar is the loudest of any big cat and can be heard up to 8 km away
- Lions have terrific night vision. They are 6 times more sensitive to light than humans. This gives them a distinct advantage over some prey species when hunting at night.

Fences around national parks and game reserves are the best way of keeping lions, rural communities, and livestock safe.

Awareness among people specially youths to value and protect out big cats.

Hunting and poaching should be prohibited.

Human and wildlife conflicts should be properly managed.

India has recorded a **29%** increase in the population of Asiatic lions, living in Gujarat's Gir forests, in the past five years, with their population going up from **523** in 2015 to **674** in 2020.
