

# World Wildlife Day

3<sup>rd</sup> March, 2022

Theme: “Recovering key species for ecosystem restoration”

The celebrations will seek to draw attention to the conservation status of some of the most critically endangered species of wild fauna and flora, and to drive discussions towards imagining and implementing solutions to conserve them.

## Things can be done to protect Wildlife

Support Organizations protecting Wildlife

Spread Awareness

Don't buy products tested on animals

Advocate for conservation

According to data from the International Union for Conservation of Nature (IUCN) Red List of Threatened Species,

- Over **8,400** species of wild fauna and flora are **critically endangered**, while close to **30,000** more are understood to be **endangered or vulnerable**.
- Based on these estimates, it is suggested that over a million species are threatened with extinction.

Slender loris

Ocyrocus griseus

Red sandalwood

Vulpes bengalensis

Pavo cristatus

Elephas maximus

Gloriosa superba

Axis axis

Panthera tigris

Melursus ursinus

Antilope cervicapra

Danaus genutia

Passer domesticus

Terpsiphona

Psammophilus dorsalis
